[ASSOCIATED PRESS NIGHT REPORT.]
TALLADEGA (Ala.) May 22.—The appearance of the comet tonight caused great excitement here. Congregations of several churches left their pews and hundreds of persons stood excited in the squares and gazed at the celestial visitor.

Miss Ruth Jordan was called to the door of her home to see the comet and immediately fell dead, physicians as- signing heart failure as the cause. A negro was shown the comet and he instantly fell dead.

**LOST TAIL THEORY IS
DISCREDITED AT LICK.**

[ASSOCIATED PRESS NIGHT REPORT.]
SAN JOSE, May 22.—At a late hour tonight, when the Lick Observatory on Mount Hamilton could be reached by telephone, a statement was given out to the effect that no observations tend- ing to show that the Haley comet had lost its tail before crossing the line of the earth's orbit and is forming a new one in the west, have been made.

Observations made tonight were poor on account of brilliancy of the moon- light.

GENEVA OBSERVATIONS.
[ASSOCIATED PRESS NIGHT REPORT.]
GENEVA (N. Y.) May 22.—Dr. Wil- ham M. Brooks of Smith Observatory observed the Haley comet last Sunday night. He made this statement today: "Haley's comet was to be seen Sat- urday night in the western sky, close to the computed position. The comet was first seen with the telescope in bright twilight, and in the presence of a nearly full moon. A little later in the evening, about 8:15, it was de- tected with the naked eye, although with difficulty on account of a haze. The tail could be traced for only a few degrees, partly on this account and the moonlight."

"As seen with the telescope, the comet's head is pointed in shape, with (Continued on Second Page.)

Census Figures Show Distinction
for Small Kansas Villages.
Bachelors Scarce.

[BY DIRECT WIRE TO THE TIMES.]
TOPEKA (Kan.) May 22.—[Exclusive Dispatch.] It is be- lieved the new census will give Cedar Point, Chase county, a distinction shown by no other village of like popu- lation in Kansas or in the United States. There are more widows in proportion to the number of families in Cedar Point than in any other village of 165 inhabitants in the coun- try.

Twenty-seven families, not including sixteen widows, make up the population of Cedar Point. The proportion is more than one widow for every two families.

Cedar Point is not, however, so well supplied with bachelors and widowers, there being at this time only six eligibles.

Mothers Among the Leading "Very Rich" Indignant at Rehearsals of Performance for Benefit of Crippled Children's Home Raise Uproar and Demand That Show Be Cut.

[BY DIRECT WIRE TO THE TIMES.]
PITTSBURGH (Pa.) May 22.—[Ex- clusive Dispatch.] Gossip at the fas- hionable churches of Pittsburgh today brought out the fact that the enter- tainment at the Rittenhouse, given last Friday evening by the sons and daugh- ters of the "very rich" of Pittsburgh for the benefit of the Home for Crip- pled Children, was censured, and bit- terly, by staid society women who threatened to not only withdraw their daughters from any part in the per- formance but their financial support of the project as well.

The Hotel Schenck management, after listening to one of the first rehearsals of the minstrel show, ordered the sons of the best families to find re- hearsal grounds elsewhere. The min- strel show then adjourned to the home of ex-Senator William Flynn, candi- date for United States Senator, and there gave a rehearsal, which Mr. Flynn, flanked by several of the lead- ing society women of Pittsburgh, cen- sored. It is said they almost swooned at the raw jokes handled by the inter- locutor and his aids. The word was once sent out that unless the "broad jokes" were cut out the performance would be cut out entirely. So the show was purified.

[BY DIRECT WIRE TO THE TIMES.]
LONDON, May 22.—[Exclusive Dis- patch.] King George has com- menced his reign with an act of clemency, granting remission of short sentences and reduction of others throughout the kingdom and in the army and navy.

Those who have one or more to serve will be released in one week. Those who have a year or more to serve will be released in one month. Those who have three years or more will be released in two months. Those who have five years or more to serve will be released in three months.

All persons in the navy who tomorrow are under sentence of im- prisonment for periods not exceeding three months for disciplinary offenses, including drunkenness and desertion, will be granted remission of the re- mainder of the sentence.

KING GRATEFUL.
King George has issued a touching letter "To My People," expressing grateful appreciation of the affection the nation has shown in the face of "a sorrow so sudden and unlooked for that it might well have been over- whelming."

"But the sentiment it has invoked," continues the King, "has made me realize that it is a good common to me and my people. They share it with me. I do not stand alone. With such thoughts, I take courage and hope- fully look to the future, strong in my faith in God, trusting my people and cherishing the laws and constitution of my beloved country."

It is announced King George intends to maintain a royal racing stable at Newmarket, and a breeding stud of Sandringham, and that he will pat- ronize racing on the same extensive scale as had his father.

FRANZ HOME IN A HUFF.
The sudden departure of Archduke Franz Ferdinand, heir apparent to the throne of Austria, on the evening of the funeral of King Edward, is now said to have been caused by marked displeasure at the place allotted to him in the procession, when he had to ride behind the Emperor of Bul- garia and in line with a Prince of the Ottoman empire. Franz Ferdinand has the reputation of being a man with a disagreeable temper, and he looked exceedingly angry during the pro- cection. He caused it to be known on Friday morning that he would leave immediately he returned from Wind- sor.

Archduke Franz Ferdinand, Heir to the Throne of the Dual Monarchy, who returned home on eve of King Edward's funeral because assigned position in procession follow- ing that of prince of lesser rank.

GRAIN BROKERS STING TWO EASTERN BANKS.

[BY DIRECT WIRE TO THE TIMES.]
ALBANY (N. Y.) May 22.—[Ex- clusive Dispatch.] A sensation was caused in financial and business circles today when it became known that two local banks were creditors of the firm of Durant & Elmore Company, grain commission brokers of Albany and Chicago, to the amount of nearly \$400,000, and that the greater part of the security deposited therefor con- sisted of worthless warehouse receipts.

An air of mystery surrounds the whole transaction and the officials of the two banks decline to be interviewed until a thorough investigation has been had. It was admitted, however, that the two banks would lose heavily, per- haps to the amount of the indebted- ness, which has not yet been positively ascertained.

It is understood that warehouse re- cepts purporting to represent grain were hypothecated at the banks, when in fact, not enough grain existed in the warehouse.

Socialists and Liberals Combine in
Hopes of Overcoming Majority of
Party Which Held Control for
Twenty-Six Years—Incomplete Re-
turns Indicate Defeat for Them.

[ASSOCIATED PRESS NIGHT REPORT.]
BRUSSELS, May 22.—Elections were held today for deputies in various dis- tricts and the results of the ballot may have an important effect on the politi- cal situation.

The Liberals and the Socialists have combined to crush the Clericals, who have been in control for the last twenty-six years.

The original majority of the Clerical party was seventy-six, but this has been gradually reduced to eight seats. The allies have bent all their energies to gain at least four seats and over- throw the domination of the Clericals.

The fight has been made by the Liberals and the Socialists. Certain reforms, including the substitution of simple universal suffrage for the present system of plural voting, based upon property and higher educational attainments, and the enforcement of compulsory neutral education as against the present system, which is largely religious.

Man's Porch.

Politician's Child Narrowly
Escapes Causing Ex-
plosion of Dynamite.

[ASSOCIATED PRESS NIGHT REPORT.]
OMAHA, May 22.—An infernal ma- chine was this evening discovered on the porch of the residence of Thomas Dennison, well-known man of this city. Frank Edman was arrested as a suspect and is being held for in- vestigation.

Dennison made a statement to the effect that Edman had stated some time ago that he would murder Denni- son.

The infernal machine was in the form of a suit case, containing two compart- ments, in one of which was found twenty-four half-pound sticks of dynamite, and in the other, with a barrel so placed as to fire into the dynamite, was a loaded revolver.

When found, the suit case was fast- ened with a string tied to a screw which was in turn fastened to the porch.

The belief is that the dynamite was intended to be exploded through the agency of this string and revolver, when the suit case was lifted from the porch.

Mr. Dennison's little daughter and a schoolmate during the afternoon had tried to lift the suit case, but, falling because of its weight, merely ex- posed the cord, which attracted Mr. Dennison's attention. He at once notified the police and two detectives were sent to the scene.

The cord was cut and the grip was removed to a vacant lot, where an examination showed its "dangerous character."

Mr. Dennison believes the grip was placed on the porch while the family was at dinner.

For a number of years Dennison has been a man of considerable prominence in local politics.

The house occupied by Henry Smith was lifted bodily from its foundation, carried about fifty feet northward and landed bottom side up. Mrs. Smith and three children were in the house and the former was painfully

bruised, while the children were slightly injured.

The home of Arthur Lingquist was carried 100 feet and landed right side up, but badly twisted. The occupants escaped with slight injuries.

While members of the family of William Wise were at supper the storm lifted the roof of the house so suddenly they did not realize what was happening.

NICARAGUAN REBELS MAKE BIG CAPTURE.

[BY DIRECT WIRE TO THE TIMES.]
BLUESFIELDS (Nicaragua) May 22.—[Exclusive Dispatch.] It is stated here that a small force of insurgents, under Gen. Mena, made a feat with slight loss in front of the government force commanded by Gen. Chavarria.

The insurgents commanded by Gen. Moncada cut the communication of the Mulla columns with Mulla de Los Ruyes, forty miles west of Rama, by this operation. The insurgents cap- tured ammunition and supply trains, and destroyed 200,000 rifle and quick fire cartridges.

The entire insurgent force is now said to be attacking Rama, in which place there is neither food nor ammu- nition. The Mullaists are said to be surrounded. It is believed by insur- gent sympathizers that news of the surrender of Rama will be received shortly.

Colonists, headed by L. Taylor, trailed the Indians into the mountains. The posse returned today. They found where the Indians had killed stolen beavers and stopped in the mountains long enough to brew tequila.

This is the first time Indians have bothered the colonists for a long while.

Taft, the President's brother, will sail for Europe next week. He will be gone until October. In the meantime, the Legislature will have been elected and the battle between the regular Repub- licans against the Democrats and in- surgent Republicans will have waged to its end.

SPAIN ELECTS SENATORS.

[ASSOCIATED PRESS NIGHT REPORT.]
MADRID, May 22.—Elections for Senators were held today but there is no change in the conservative charac- ter of the Senate, as sixty-one mem- bers sit by virtue of their position as Grandees of Spain, Captains General and Archbishops, and 121 are ap- pointed for life. CHICAGO, May 22.—Albert C. Gor- don, for seventeen years a Chicago mail carrier, was arrested today by order of Postoffice Inspector James E. Stuart, who says Gordon has con- fessed to robbing the mails for more than four years. Complaints from all over the country of the loss of money from registered letters had baffled the officials.

Gordon was arrested five years ago on a similar charge, but it could not be proved and he was continued in the service.

TEN MILLIONS FOR PRINCETON

Estimated Amount Left by Isaac C. Wyman.

Needs of Graduate College Provided for.

Old Discussion Over Site Is Again Revived.

[ASSOCIATED PRESS NIGHT REPORT.]

SALEM (Mass.) May 22.—While the value of the immense gift bequeathed to Princeton by the late Isaac C. Wyman is estimated at \$10,000,000, its exact amount is unknown, even to the trustees.

John H. Raymond, an attorney of this city, who is one of the trustees, does not think the estate would exceed \$10,000,000, and he was not prepared to say whether it would equal it.

There are millions more, he added, "to take care of the needs of the graduate college or proposed graduate college for which, under the terms of the will, the money is designed."

Trustee Raymond tonight that Mr. Wyman, who made his will July 1, 1909, drew the document with full knowledge of the controversy over the selection of a site for the Princeton graduate school.

Mr. Raymond asserted that Mr. Wyman's gift would make possible everything recommended in the official report of Dean West, after his return from a study of the methods of graduate schools abroad.

REQUEST CAUSES SENSATION.

[ASSOCIATED PRESS NIGHT REPORT.]

PRINCETON (N. J.) May 22.—The report of a large bequest to the graduate school of Princeton by Isaac C. Wyman, of the class of 1844, occasioned a sensation in Princeton today among the trustees who happened to be here, the faculty members and the undergraduates of Princeton.

The bequest opens anew the graduate college discussion that became an issue when an offer of \$500,000 was made for the graduate school by William Cooper Proctor, '98, of Cincinnati.

It is believed the additional sum available for the graduate school will, by reason of its magnitude, set aside a number of conditions that have hitherto been prime factors in the dispute.

The question of site, it is said, probably will be eradicated, as the gift will make possible the construction of the university into parts now remote from the campus, but which will not have the prospect spoiled by intervening buildings.

Mr. Wyman was well known in Princeton as an old graduate, though never since his graduation in 1844.

President Wilson declined to make any statement tonight in reference to the new gift, inasmuch as he had not received official notification of it.

SUFFRAGISTS GET EVEN FOR THE STINGS HE GAVE.

Editor of Catholic Magazine by Address Aroused Remarks by Leaders of Movement for Equal Rights. They Say His Views Are Antidivine and Have no Weight.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, May 22.—[Exclusive Dispatch.] Women suffragists were made the target Saturday of a stinging address before the Irish Fellowship Club by S. A. Baldus, editor of the Catholic Church Extension Magazine. Today Mr. Baldus was the target.

Mrs. Ella S. Stewart, president of the Illinois Equal Suffrage Association, denounced Mr. Baldus as so prejudiced he could have no right to read the accounts of his address.

"I am sorry to say," she said, "his talk is a sample of antidivine anti-suffragism. His arguments sound like ones that would have been made at any subject centuries ago. Such a statement as he made about choosing an anarchist before a suffragist makes people feel he is so prejudiced he has no weight. He must have a most singular temper."

Dr. Anna E. Blount, member of several equal suffrage societies, said:

"I don't worry much about what a man like Mr. Baldus says. Very many of my suffragist friends have good-sized families. I have three children myself."

"I would like to see the woman that stood up and thanked Mr. Baldus," said Mrs. J. Edward Thornydyke. "His views are narrow, and he is not up to the spirit of the times."

MOUNT LOWE

AND THE COMET.

VIEW THROUGH TELESCOPE IN A FINE FOGLASS SKY.

Vision of Gigantic Sunspots from the Near-by Observatory—Calculations Made by Local Astronomer. The Halley Tail Seems to Have Quite a Peacock Spread Still.

BY WILLIAM H. KNIGHT.

Halley's comet was very much in evidence at the Mount Lowe Observatory last evening. It shone forth resplendent in a large purplish glow surrounding a fiery nucleus. When the sunset glow was gone and the deep blue sky was transformed into a black vault, the tail—at first short and broad—lengthened out into longer and longer streamers till the most distant threads of shimmering light faded out near the twin towers, Castor and Pollux, more than twenty degrees from the horizon.

Last night's exhibition of the great comet testified its historic reputation as a spectacular object, and we cease to wonder that in the dark ages, before the science of astronomy had determined its nature, this suddenly appearing messenger of the skies was regarded with superstitious awe.

The thought was frequently uttered with varying phase, if this celestial visitor can produce an effect so beautiful and striking as the full moon, striving to pale its fires and delicate streamers, what a magnificent object it will be on Monday evening when the Queen of Night is annihilated for an hour while submerged in the earth's shadow. Then the comet will shine forth in full splendor to hold in the memory for a lifetime.

When the throng of visitors had assembled under the dome of the Mount Lowe Observatory, Prof. Edgar L. Larkin, the veteran director who succeeded Dr. Lewis Swift and has been conducting regular observations of the comet, addressed his guests in simple language, giving a brief history of the comet's past and its present position, and the accepted theories of the nature, origin, and phenomena connected with these mysterious bodies.

The guests then formed in line and each in turn climbed the steep perch which ended in a look-out tower, through the big tube and gazed their fill at the wonderful object. The comments and exclamations of the sightseers were varied, amusing, witty, odd, original, and diverting as the mentalities which prompted their utterance. For a little time the petty quarrels and jealousies of their narrow lives were obliterated, and their minds broadened by contemplation of the infinite of time and space and the vastness of the universe.

When the present Mount Lowe telescope was presented to Dr. Swift more than a quarter of a century ago, it was one of the notable telescopes of the world. Less than half a dozen were larger, and the Mount Lowe telescope, with its petting jars and Venus of the world, shows the belts and satellites of Jupiter and Saturn, and resolves many nebulae into beautiful star clusters, thus revealing the existence of other sidereal universes beyond the confines of our own.

While the sun was still above the horizon the telescope was turned upon it and its image, ten inches across, produced on plate of cardboard. And there, nearly along the line of the sun's equator, was a chain of sunspots, not all connected together, about 200,000 miles in length. One of the largest of these, probably the center of a great solar cyclone of unimaginable force, was about 10,000 miles in diameter, large enough to swallow four earths in one group. What electronic emanations may proceed from that mighty center of solar energy, and what disturbing the electric tension of planetary atmospheres, and lighting wonderful auroras, we cannot even conjecture at the present time.

EARTH BETWEEN TWO TAILS, THINKS HUSSEY.

[ASSOCIATED PRESS NIGHT REPORT.]

ANN ARBOR (Mich.) May 22.—Prof. W. J. Hussey, of the University of Michigan, said last night that the cablegram from Johannesburg, in connection with photographs made at the Michigan observatory, explains the hitherto contradictory reports as to the presence of the comet's tail in both the East and the West.

"Our photographs," said Prof. Hussey, "indicated two tails, one a short bright one suspended midway, and a long distinct horizontal appendage, both extending away from the sun."

In view of the report that one tail is now visible in the west and the other in the east, it is probable the earth is between these two tails, having passed through one of them."

INDIANA HAS A JACK-POT STORY.

ITS DIFFERENT FROM THAT OF HER NEIGHBOR.

Kern's Allegations That Brewery Influence "Fixed" Eight Men Whose Votes Elected Senator. Shively Proven Brooming Which Threatens to Divide State Democracy.

[BY DIRECT WIRE TO THE TIMES.]

INDIANAPOLIS (Ind.) May 22.—[Exclusive Dispatch.] Indiana is maintaining an insight into a political "jack pot" of its own, but it affects the Democrats, and not the Republicans.

Kern's charges made some time ago that Shively Senator United States Senator through the bribery by the liquor interests of eight men, are tearing up the party and are providing ammunition for the Republicans, who are insisting in demanding that Kern give the names of the men who participated in the "jack pot." Unless this disclosure is made the chances are believed to be against the present Senatorial candidates.

It was noticed when the several candidates for the senatorship were before the recent convention that Senator Shively, who had spoken of making a nomination, was intensely interested in the increasing vote from the northwestern part of the State, where Shively is best known and most popular, were concentrating their votes on other candidates.

The reason for this has come to the surface in a persistent demand that Kern Shively Senator United States Senator through the bribery by the liquor interests of eight men, are tearing up the party and are providing ammunition for the Republicans, who are insisting in demanding that Kern give the names of the men who participated in the "jack pot." It was noticed when the several candidates for the senatorship were before the recent convention that Senator Shively, who had spoken of making a nomination, was intensely interested in the increasing vote from the northwestern part of the State, where Shively is best known and most popular, were concentrating their votes on other candidates.

The reason for this has come to the surface in a persistent demand that Kern Shively Senator United States Senator through the bribery by the liquor interests of eight men, are tearing up the party and are providing ammunition for the Republicans, who are insisting in demanding that Kern give the names of the men who participated in the "jack pot." Unless this disclosure is made the chances are believed to be against the present Senatorial candidates.

WHEELER IN FRONT AGAIN.

Utility Angel Heaver Beats Vernon Easily.

Toser Would Have Won Second Game But for Errors.

Bernard's Left-Handed Catch the Fielding Feature.

Los Angeles, 4; Vernon, 1. Morning game.

Vernon, 5; Los Angeles, 3. Afternoon game.

Errors by Daley and Bernard at the wrong times beat the Angels out of a double victory yesterday but as it was they won one game of the two very easily. No one can guess if they could have taken the second game but the fact that Bernard made bad bingles in the first of the ninth that permitted two runs to score a large number of the fans have charged the defeat to these two good players. Any time they make errors the mistakes should be forgotten for they do ten good things to one bad one.

The principal feature of the day was the reappearance of George Wheeler as a pitcher and to the surprise of the fans at Vernon he won the morning game easily without much effort. This is remarkable in a way for the old boy has not pitched for months, but he showed yesterday that he is just about as good as any of them when he is good, for he was never even in trouble. He was given practically perfect support, but even with this few fans can win unless they have the goods to offer.

While he walked three men these were in different innings. He was hit for eight singles and three of these that came in the ninth inning made the only run the Vernons scored. But three men reached third base and if that is not something for any heavier to be proud of there is nothing worth putting a bet down on in baseball, inasmuch as Vernon is ordinarily a hard-hitting team.

Brackenridge and Brown went in against Wheeler and Smith with the unique record of not having lost a game this season. They did yesterday for the Angels rapped Brack hard in spots and secured two earned runs, which were enough to win the game. They got two more later on but actually required four good singles, two errors, a wild pitch, a pass and an out to get them.

The only run Vernon made started with Kit Brashers' single, and ended with Roy Brashers' single, Coy's out at first and Lindsay's single. For the local to the second inning Dillon doubled to right, advanced on Murphy's sacrifice and scored on Roth's single center, and in the third inning successive singles by Daley, Bernard and Howard made the second run.

The big fielding feature of this game was Bernard's fine left-handed catch of Fisher's long fly against the right field fence in the eighth inning. Coy made a two-bagger to right in the second inning, but was called out for not touching first base.

BIG MATINEE. More than 5000 fans saw the afternoon game and got their money's worth in the excitement that ensued for the score was see-sawed back and forth from start to finish and the game did not end until the last Angel had been relegated in the last of the ninth inning. First one team led, then the other would be in the lead, but the roof fell in on the Angels in the first of the sixth and they could not extricate themselves from the debris before it was time to go home to dinner.

Hitt heaved for the Vernons, and did his usual good work, holding the local to five hits, one of which was Orendorf's double to center in the seventh, after he should have been called out on strikes. Umpire Finney was rough a number of times, but this was probably due to the fact that the score was close, and on the winning of the game depended whether Los Angeles or Vernon would take the odd game in the series of seven. Vernon won the game and thus got four of seven games.

Toser pitched for Los Angeles and did very well, but got poor support in the ninth, which lost him the game. He probably would have won but for two bingles by Howard in the first inning and blunders by Daley and Bernard in the ninth. In the first inning Carlisle got to first base when Howard juggled his grounder, ran to second on Kit Brashers' single, and was forced at third by Martin's grounder. This got Kit on second and he advanced to third on Brother Roy's hit at first. Then Coy was walked and Kit Brashers scored when Howard and Brashers' grounded to high to Dillon at first.

In the fourth inning Fisher singled and scored on Orendorf's sacrifice, Hitt's out and Carlisle's drive to right, while Coy's double and Lindsay's single scored the third run in the eighth.

Los Angeles got its first run in the third on Orendorf's pass. Toser's single and force out by Daley and a double steal by Orendorf and Daley. With two out in the seventh, Roth walked, ran to second by Daley and to right and both runners crossed the plate on Orendorf's double to left center.

When the ninth arrived the score was tied at 2 to 2, and Hitt was an easy out at first, being the first man to hit. Carlisle followed with a hard double over third base by Daley and a double steal by Orendorf and Daley. With two out in the seventh, Roth walked, ran to second by Daley and to right and both runners crossed the plate on Orendorf's double to left center.

TWO FOR OAKLAND.
BEAVERS ARE EASY.
[ASSOCIATED PRESS NIGHT REPORT.]
SAN FRANCISCO, May 22.—Oakland made five games out of seven for the series when the trans-bay players took both the morning and the afternoon trophy from Portland today.

In the forenoon at Oakland they fell on the overworked Kit Steen for four teen hits and when the battle was over had nine runs to the northerners lone mark on the score card. Swander and Nelson each registered a home run.

Fisher's wild throw in the fourth inning was responsible for Portland's defeat by a score of 3 to 1 at Recreation Park after lunch. Krapp who was pitching a grand game, made Cameron hit to the infield when the bases were full and there were no outs. Cutshaw was out at the plate and Krapp duplicated the play on Wolverton, the next man up, catching Swander at the plate. When he tried it on Swander it worked fine and he returned the ball to Fisher in plenty of time to allow Fisher to double Swander at first. Fisher tossed the ball wide and Hogan and Cameron scored.

Moser, Oakland's star, allowed only three shots at the plate and walked no one. The scores:

TWO FOR OAKLAND.
BEAVERS ARE EASY.
[ASSOCIATED PRESS NIGHT REPORT.]
SAN FRANCISCO, May 22.—Oakland made five games out of seven for the series when the trans-bay players took both the morning and the afternoon trophy from Portland today.

In the forenoon at Oakland they fell on the overworked Kit Steen for four teen hits and when the battle was over had nine runs to the northerners lone mark on the score card. Swander and Nelson each registered a home run.

Fisher's wild throw in the fourth inning was responsible for Portland's defeat by a score of 3 to 1 at Recreation Park after lunch. Krapp who was pitching a grand game, made Cameron hit to the infield when the bases were full and there were no outs. Cutshaw was out at the plate and Krapp duplicated the play on Wolverton, the next man up, catching Swander at the plate. When he tried it on Swander it worked fine and he returned the ball to Fisher in plenty of time to allow Fisher to double Swander at first. Fisher tossed the ball wide and Hogan and Cameron scored.

Moser, Oakland's star, allowed only three shots at the plate and walked no one. The scores:

NEFARIOUS PLOT IS FOILED BY SCREAMS.

Girl-Mother of Child in Fake Quadruplet Affair Discovers Intruder, Who Is Captured—She Believes Plan Is Made to Silence Her.

HOUNDED by men who have sought to either kidnap or destroy her, Miss Sadie Engelman, No. 413 La Fayette street, was probably saved from death or abduction, Saturday night, when her stepfather, J. Tabak, attacked a Mexican, who was crouching near her bed, and foiled the stealthy housebreaker by striking him on the head with a heavy walking stick. Recovering his senses the man made a dash for liberty pursued by Tabak and his wife, who chased him until he was joined by accomplices near the front of the house.

Patrolman Greenly took him prisoner later when he saw a hatless man with a wound on his head running down the street. Two mysterious Mexicans who were waiting in front of the house with suit cases made their escape. When booked at the Central Police Station the prisoner gave his name as G. AVISA, but refused to discuss the case or state by whom he was employed when he entered the Tabak home.

Miss Engelman believes that she is being shadowed by either assassins or would-be abductors who wish to get her out of the way to prevent her prosecution of a suit against Mrs. Catherine Smith, a midwife with an unsavory reputation, who runs a nursery on Sunset boulevard.

The case is entangled with the notorious Wilson quadruplet affair. Mrs. Engelman is the mother of one of the children used by Mrs. W. W. Wilson in her plan to make the public believe that she had given birth to quadruplets.

Mrs. Wilson bought Miss Engelman's infant son from Mrs. Smith, who took the child in partial payment for her services to the unfortunate girl-mother. The latter had Mrs. Smith arrested for child theft after the quadruplets were exposed and is suing her now for \$5000 damages.

The case was in Justice Summerfield's court last week and the defendant was bound over to the Superior Court under \$2500 bonds. The young mother says that she believes the midwife is seeking to silence her forever so that she cannot give evidence which may throw a light on her character that would bring her within the shadow of the penitentiary.

The daring feat of the Mexican who entered the Tabak home followed closely after a mysterious woman called in an automobile and gained entrance to the house under pretense of making a real estate deal. The richly-dressed stranger suddenly offered to bribe Miss Engelman to drop her suit against Mrs. Smith. Tabak was called in and he rejected her.

From that time the house was watched by swarthy men who stole stealthily about the place and peeped out from hiding places in the woods. The supposed object of their undesirable attentions was kept in the house closely watched, but the man who was caught Saturday night, watched his chance and crept in, presumably to seek a hiding place where he could wait to murder the girl, open the door to let in his confederates to help carry her away.

Men who acted queerly passed the house dozens of times yesterday afternoon and two Mexicans made themselves so conspicuous as spies, that Tabak appealed to the police for protection. Lieut. Krejcie refused his request and he is arranging to have a friend alternately with him in guarding his harassed step-daughter.

While the forces which brought the illegitimate baby into the world were waging a fight for its possession, a little sufferer was dying in the children's home. Late last night it was reported that he could not live. The child was a ward during the legal battle, but the frail, hollow-cheeked cause of so much turmoil and sorrow was to cease his life in a world which gave him no welcome and resented his existence.

HOTEL THIEF LOOTS ROOM.

Woman Guest Is Robbed of Her Valuables.

Intruder Takes Time Making Thorough Search.

Police and Private Officers Work on Case.

Detectives spent yesterday investigating a robbery at the Hotel Van Nuys, which occurred Saturday afternoon, and it is proving a great annoyance, both to the officers and the hotel men, who fear that it may be the forerunner of others.

That the work was carefully planned and ably carried out is unquestioned. The thief or thieves awaited a favorable opportunity and looted a room, taking a valuable fur box, an amethyst brooch and an amethyst and pearl necklace. The value of these articles has not been determined, but the officers say the loss will amount to several hundred dollars.

Miss Louise May, a society girl of San Francisco, is the loser. She arrived here May 19, accompanied by her sister, Miss Alice May. The young women took apartment No. 212, at the Van Nuys, where their uncle, Maj. G. H. Simon, is a resident guest.

Every afternoon the little party of three visited the beach. Saturday afternoon, as usual, the young women left their apartment, unlocked the lobby and gave their key to the clerk. They left for the beach and were gone until 5 o'clock, an absence of four hours. When they returned they found that the apartment had been entered during their absence.

The hotel people are emphatic in their contention that the robbery would not ordinarily be done by a servant, for the reason that pass keys are not hard to get by employees of the hotel, and much more valuable loot has been at hand on former occasions, and has remained unlooted when employees were about.

The hotel management and the guests were unwilling to talk about the robbery yesterday, other than to state that they hoped the guilty party might soon be apprehended.

ACCIDENTAL.

AUTO INJURES A RETIRED ARTIST.

Englishman Falls to Near Machine, Is Knocked Down and Dragged. Although Leg Is Broken He Walks Into Hospital and Displays Grit While Surgeons Work.

While crossing Orange street at the intersection of Loomis, yesterday morning, George F. Jesuit, a retired artist, was run down and probably fatally injured by an automobile driven by R. J. Cope of No. 1055 Orange street.

Jesuit is an Englishman, who resided at the home of James F. Swift at No. 1013 Ingraham street. He has made Southern California his home for many years.

Yesterday morning he went out for his usual morning walk. It was shortly after 9 o'clock when he reached the intersection of Orange and Loomis streets. He is more than 71 years of age and a little deaf and for that reason did not hear the approaching automobile which, witnesses state, was being driven at a moderate rate of speed in an easterly direction on Orange street.

Jesuit walked directly in front of it. He was struck and knocked down and before the machine could be brought to a standstill he was dragged several feet and terribly injured.

Cope was accompanied by his mother at the time of the accident and they had just left their home when the affair occurred.

Cope stopped the machine as quickly as possible and jumped out. He hurried to Jesuit and aided him to the curb.

He then telephoned for the police ambulance and waited until its arrival. Jesuit was removed to the Receiving Hospital and Cope followed in his automobile to make a report of the affair to the police and arrange for the care of the victim.

A remarkable feature of the accident was that when Jesuit reached the Receiving Hospital, although suffering from a broken leg and other bad injuries, he managed to walk into the institution practically unaided. His grit never left him for a moment during the time the surgeons were attending his injuries.

He had sustained a fracture of the nose, a fracture of the lower bones of the right leg and probable internal injuries. Most of the leg had been scraped from one side of his face and from the backs of both hands. He also lost scraps of skin from his shoulders, legs and thighs.

He was later removed to a private institution. The attending surgeons stated last night that in view of the terrible injuries and the shock combined with the man's age, his condition was grave and the accident might terminate fatally. So far as known the old man has no relatives in this country except a nephew.

UNFORTUNATE.

FORMER OFFICER DRIVEN INSANE.

HE IS DISABLED BY DISEASE AND WORRIES MUCH.

When Unable to Work He Asks Police Commission to Retire Him on Half Pay, But the Request Is Refused—Becomes Violent and Tries to Kill Self.

Brooding over the fact that the Police Commission had refused to allow him to retire on half pay when he was disabled by a nervous disease which he contracted while serving in the police department, William F. Cooper, former patrolman and recently property clerk at the City Jail, became violently insane Saturday.

Cooper served nine years as a policeman and was property clerk for a year and a half prior to his resignation from the department about seven months ago. He was seized by locomotor ataxia, which he claimed was the result of hard service, and on this ground he asked to be retired on half pay, although he was just 41 years of age.

When he found himself without any means of support and the commission of only his home at No. 44 South Broad street and a small income, he became despondent and talked frequently of his trouble. He feared that his wife might be left destitute in the event of his death, and he talked of suicide. He would not put him on the retired list.

While visiting his mother at No. 1034 Fifth street, Long Beach, Cooper became violently crazy and was sent to the insane ward of the County Hospital. He tried to hang himself during a fit of rage and was saved from death by friends who found him in a desperate condition. He appeared to be in his right mind and talked rationally. With a few minutes a new frenzy seized him and he had to be gagged to prevent him biting off his tongue and snapping at everything within reach. He was so powerful that it took five men to subdue him.

During his service as a policeman he was noted for his strength and nobility. He had an excellent record and was courted among the officers who used their heads as well as their hands.

He was commended for his work on several occasions, and his position as property clerk came as a reward for his integrity.
